

November 12, 2020

Our Perry county is experiencing a significant increase in COVID positive cases. We are currently #2 in the state for cases per capita and #1 per capita over the 7 days ended 10 November.

Hospitalization of COVID patients is also increasing, causing concerns about overworking our great doctors, nurses, and staff.

All of us are experiencing "COVID Fatigue" and are tired of hearing about it, but we cannot yet declare the virus defeated or let our guard down.

A vaccine is coming but until that happens, we must continue to take personal responsibility to protect ourselves, our families, and our fellow citizens as best we are able.

Follow our local health department guidelines, they are working very diligently to provide us the information necessary to slow the spread of the virus

Ken Baer  
Mayor of Perryville

Mike Sauer  
Perry County Presiding Commissioner

Jay Wengert  
Perry County Associate Commissioner, District 1

Jim Sutterer  
Perry County Associate Commissioner, District 2
